## GETTING STARTED

**WARNING: NEVER TRY TO INSERT OR REMOVE A GAME PAK WHEN THE POWER IS ON!**

- Turn the power OFF on your N64.
- Insert the Game Pak into the slot on the N64. Press firmly to lock the Game Pak in place.
- Turn the power switch ON. After the appearance of the title and legal screens, you may continue at any time by pressing **START**.

### CONTROLLER PAK MENU

Press and hold the **START Button** upon powering up or reset to access the Controller Pak Menu. This will allow you to view and delete saved information from a Nintendo 64 Controller Pak.

### USING THE RUMBLE PAK

Anytime you start a game, you will be prompted to insert your Rumble Pak at that time. If you are not using a Rumble Pak, press the **A Button** to move on.

#### REMEMBER

It is important to only switch your Rumble Pak and Controller Pak when prompted to do so.

09

## CONTROL STICK FUNCTION

The Nintendo 64 **Control Stick** uses an analog system to read the angles and directions of its movement. This allows precision control that is not possible using the conventional **Control Pad**.

When turning the Control Deck power **ON**, do not move the **Control Stick** from its neutral position on the controller.

If the **Control Stick** is held at an angled position (as shown in the picture on the left) when the power is turned **ON**, this position will be set as neutral. This will cause games using the **Control Stick** to operate incorrectly.

To reset the neutral position once the game has started, let go of the **Control Stick** so it can return to its center position (as shown in the picture on the left) then press **START** while holding down the **L** and **R Buttons**.

The **Control Stick** is a precision instrument, make sure not to spill liquids or place any foreign objects into it. If you need assistance, contact Nintendo Consumer Assistance at 1-800-255-3700 or your nearest Nintendo Authorized Repair Center.

## ON THE FIELD

17

### TIME & SCORE

Keep an eye on the time in the game. It's easy to get caught up in the game and not pay attention. Since Player 2 always gets the kickoff following halftime, it's important to score before the half if you're Player 1.

### POSSESSION MARKERS

It's quite simple, Player 1 is blue, and Player 2 is red.

### TURBO GAUGES

As you use up your Turbo, the gauges diminish. The sooner you let go of the Turbo Button, the sooner it will regenerate. Don't hold down the button when you're out of Turbo.

18

## TIME OUT

Press the **Start Button** at anytime during the game to view the Time Out Options. Select **Resume Game** to continue playing.

### OPTIONS

See **Options**, pg. 11-12, for details.

### QUIT GAME

To quit a game in progress, select this option, then select **Yes**.

## OVERTIME

If your game is tied following regulation time, you'll go into overtime. In Arcade mode, you'll play up to 3 overtimes. If a winner isn't determined after 3 overtime quarters, you will finish tied.

In Season mode, you'll both be given a loss when tied following 3 overtimes.

## TIPS & RULES

### GENERAL HINTS:

- Wait for a receiver to get open before passing to him.
- On Defense, use the **Change Player Button**, then press the **Tackle Button** to knock down the receiver just as he catches the ball to cause a bobble.
- Press **Change Player Button** to Control Nearest Defender
- Hold the **Turbo Button** to run faster up field
- **QB Jump Pass** - Run away from blitzing defenders, then press **Turbo + Jump**. While you're in the air, choose a receiver and press the **Pass Button**. You'll avoid QB sacks with this tactic.
- **Turbo Button Usage** - Use the **Turbo Button** to make your player run faster, jump higher and hit harder. Hard hits will cause the ball carrier to fumble more often. Use your turbo wisely.
- **Spin Move** - Quickly tap the **Turbo Button** to perform a spin move. Spin moves cause defenders to miss tackles. Of course, you must have some Turbo available to perform this move.
- **Stiff Arm** - While carrying the ball beyond the line of scrimmage, hold down **Turbo** then press the **Pass Button**. This will knock down a would be tackler.
